

QUESTIONS ASKED BY A THIRD GRADE CLASS

If I can see the sky, can the sky see me? When can the wind feel tears?

What does it feel like to soar in the sky?

Why do the gleaming stars shine down then vanish in mid air? Why do birds sing out their most beloved songs?

Why does the rippling water brush against the sparkling water to make peaceful sounds?

Is a leopard in the heart of a cheetah?

Are stars made of fire or light? Does the sky have a friend?

Why is there a sunset in the chaos of clouds? Why do shadows dance with the wind?

Do volcanoes erupt for hope? Do we exist forever?

Do falling stars land on earth?

**How long can the sun hold it's breath?
Can flowers sing?**

If a star could choose would it give its magic to you? Can an earthquake shake your heart?

Can silence talk to you?

Can shadows be your friend?

How does your imagination take you on such a far away journey?
